

Zeeshan Ilahi

Software Developer

zeeshan02679@gmail.com | +1-240-316-5202 | Indianapolis | www.linkedin.com/in/zeeshanilahi | github.com/zeeshani26

WORK EXPERIENCE

- Futurewonder, Bloomington, Software Developer Intern**  05/2025 – 12/2025
- Optimized web platform performance, achieving 70% faster page load times through image optimization and development of reusable React components.
 - Resolved 120+ development tickets and conducted 40+ code reviews across full-stack features, infrastructure improvements, and third-party integrations (Facebook Pixel) using GitLab for version control and collaboration.
 - Built an automated code review testing tool from scratch using Cursor API, cutting review testing time by 50% and eliminating manual Cursor Agent MD workflows, deployed on AWS with Docker-managed environments.
 - Enhanced the 'Charioteer' AI project with code optimizations and implemented a CI/CD pipeline for automated bi-weekly performance report generation using Cursor API on AWS with Docker environments.
- Indiana University, Indianapolis, Teaching Assistant** 01/2025 – 05/2025
- Collaborated Mentored and guided students in the "Introduction to Data Science" course, focusing on key topics such as exploratory data analysis, statistical methods and data visualization.
 - Graded coursework and conducted office hours to address students' doubts, offering support to reinforce classroom learning.
- Meritto, India, Implementation Specialist**  05/2023 – 08/2024
- Developed and deployed 12+ scalable web applications, improving client operations by 30% as part of a team.
 - Configured and integrated third-party APIs (Google Maps, Stripe) to enhance functionality and optimize data exchange.
 - Designed and implemented responsive user interfaces using React.js, Redux, HTML5, CSS3, and JavaScript, achieving a 98% client satisfaction rate.
 - Collaborated with cross-functional teams to analyze requirements, deliver customized software solutions, and meet 100% of project deadlines.
 - Awards:
 - Annual Best Performer Award** (Presented in recognition of exceptional performance, growth, and achievement) - Dec 2024
 - Time Excellence Award** (Presented in recognition of timely task completion and efficiently closing tickets) - Jan 2024 (awarded Feb 2024)

EDUCATION

- MS in Computer Science, Indiana University** 08/2024 – Present | Indianapolis, USA
Coursework: Data Structures and Algorithms, Software Engineering, Database Management Systems, Artificial Intelligence, Cloud Computing, Advanced Operating Systems, Computer Networks, Data Science, Interaction Design Practices, Algorithm.
- Full Stack Developer, Masai School** 04/2022 – 03/2023 | Bangalore, IN
Completed a comprehensive, hands-on program covering front-end technologies (HTML, CSS, JavaScript) and back-end technologies (Node.js, Python). Completed industry-grade projects under expert guidance, applying theoretical knowledge.

PROJECTS

- The Game Store, Full-stack e-commerce platform** 
Built an e-commerce platform using React, Bootstrap, Redux, Node.js, Express, and MongoDB, with features such as cross-platform compatibility, authentication, pagination, search, PayPal integration, and an admin section.
- Phishing Detection System, AI-powered security analysis platform** 
Built a threat detection web application using Python, Flask, and Google Gemini AI to analyze emails and URLs for phishing and malware. Features include multi-format file processing (PDF, TXT, DOCX, EML), real-time risk scoring, threat classification with confidence metrics, and actionable security recommendations.

SKILLS

- | | |
|---|---|
| Programming
Python, JavaScript, C++, Go, SQL, HTML5, CSS3 | Web Development
MERN stack (MongoDB, Express.js, React.js, Node.js), RESTful APIs, Responsive Design, Redux, Bootstrap |
| Backend Development
Database Optimization (MongoDB, SQL), Authentication (OAuth, JWT), Version Control (Gitlab/GitHub) | Software Engineering
Requirements Analysis, Design Patterns, SOLID Principles, Unit Testing, Deployment (AWS, Netlify, Vercel), CI/CD Pipelines |
| Organizational Skills
Agile (Scrum), Workflow optimization, Project Management (Zoho/JIRA) Prioritization, Information management | Cloud Technologies
AWS, Netlify, Vercel, Docker, Cloud Infrastructure, Deployment Automation, Containerization |
